

# NANNIE HELEN BURROUGHS

*"Success is the result of opportunity, responsibility, and challenge"*

**Burroughs separated the country's racism problem into two areas - structural individual behavior**

- **Encouraged Blacks towards full citizenship**
- **Assailed the country's power structure**
- **Urged Blacks to fight discrimination**
- **Demanded Whites to end racism**
- **Challenged both races to cooperate in building a just society**

**In her books, 1950/1952, What Do You Think/Think On These Things, she dedicated a chapter to *The Meaning of Cooperation***
